SUMMARY

I'm a programmer with an interest in full stack web development. My passion for programming originated from my desire to create products. I primarily use the PERN stack to develop my web applications but I don't shy away from learning new technologies!

SKILLS

TECHNOLOGIES	JavaScript, Node, C#, HTML, CSS
FRAMEWORKS/LIBRARIES	React, Express, ASP.NET Core
TOOLS	Figma, Visual Studio Code, Git CLI, GitHub, Linux CLI
DATABASES	PostgreSQL, MongoDB

PROJECTS

CALORIE TRACKER | REACT, EXPRESS, POSTGRESQL, FOODDATA CENTRAL API

<https://www.calorietracker.site> | GitHub

- Integrated with the FoodData Central API.
- Utilized the PERN stack to build a fast yet dependable web application.
- Add, Delete, and Edit any food from the FoodData Central API.
- Cookie stored id accessible only by the server allows for a secure application.

YOUTUBE MP3 DOWNLOADER | CHEERIO, EXPRESS, EJS, NODE

GitHub

- A mp3 downloader that utilizes cheerio.js to web scrape search results directly from YouTube.
- Download any video from the search results in a mp3 format.

PORTFOLIO | REACT, NEXT.JS

<https://noahreppert.netlify.app>

- Simple but clean UI that is easily extendable.
- Utilizing Next.js to allow for possible future upgrade (ex : blogs).
