

## Noah Reppert

Location: Collegeville, PA – Phone: (484) 636-4771 – Email: [noahreppert95@protonmail.com](mailto:noahreppert95@protonmail.com)

### Summary

Motivated programmer who demonstrates a strong work ethic. Seeking to apply my skills and passion for programming at a professional level while collaborating with team members. I love working on challenging technical problems and learning new skills.

### Education

**Montgomery County Community College** | August 2020 – December 2022

Associates of Science in Computer Science | Blue Bell, PA | GPA: 3.2

### **Relevant Coursework:**

Java and Object-Oriented Design

Data Structures and Algorithms

Assembly

Databases

### Skill Summary

Programming Languages: Java, Python, JavaScript, SQL, CSS, HTML, and C++.

Technical: React, Node, Express, Git, Figma, Django, Docker, Unit Testing, Linux, and AWS.

Interests: Full Stack Development, Mobile Dev, DevOps, and Game Dev.

### Personal Projects

**Calorie Tracker** | React, PostgreSQL, Express, Node, and REST APIs

<https://github.com/NoahR02/calorie-tracker>

A fully fledged calorie tracker that allows you to track your food and weight. Integrated with the USDA Food Data Central API for the best food results.

**Portfolio Website** | React, Netlify/CD, and Next.js.

<https://noahreppert.netlify.app/>

My portfolio website that is built with Next.js.

**Game Framework** | C++, Modern OpenGL, OpenAL, CMake, and GLSL

<https://github.com/NoahR02/game-framework>

A 2D game framework that is capable of basic rendering, physics, and sound.

**Copy Element Text** | JavaScript

<https://github.com/NoahR02/copy-element-text>

Adds a menu to the context menu, which will copy an element's text content. Useful for copying a link's text content.

### Work Experience

**BJ's Wholesale Club**, Oaks, PA – October 2018 to January 2019

Cashier
