Noah Reppert

Location: Collegeville, PA – Phone: (484) 636-4771 – Email: noahreppert95@protonmail.com

Summary
Motivated programmer who demonstrates a strong work ethic. Seeking to apply my skills and passion for programming at a professional level while collaborating with team members. I love working on challenging technical problems and learning new skills.

Education
Montgomery County Community College | August 2020 – December 2022
Associates of Science in Computer Science | Blue Bell, PA | GPA: 3.2

Relevant Coursework:
Java and Object-Oriented Design
Data Structures and Algorithms
Assembly
Databases

Skill Summary
Programming Languages: Java, JavaScript, SQL, CSS, HTML, and C++.
Technical: React, Node, Express, Git, Figma, Docker, Unit Testing, and Linux.
Interests: Full Stack Development, Mobile Dev, and Game Dev.

Personal Projects
Calorie Tracker | React, PostgreSQL, Express, Node, and REST APIs
https://github.com/NoahR02/calorie-tracker
A fully fledged calorie tracker that allows you to track your food and weight. Integrated with the USDA Food Data Central API for the best food results.
Portfolio Website | React, Netlify/CD, and Next.js.
https://noahreppert.netlify.app/
My portfolio website that is built with Next.js.
Game Framework | C++, Modern OpenGL, OpenAL, CMake, and GLSL
https://github.com/NoahR02/game-framework
A 2D game framework that is capable of basic rendering, physics, and sound.
Copy Element Text | JavaScript
https://github.com/NoahR02/copy-element-text
Adds a menu to the context menu, which will copy an element's text content. Useful for copying a link's text content.

Work Experience
BJ's Wholesale Club, Oaks, PA – October 2018 to January 2019
Cashier
